

## **Cypress Pines Property Owners Association, Inc.**

### **Accepted Color Palettes**

In order to promote a color scheme within the community that is both harmonious and aesthetically pleasing, the following color palettes have been approved by the CPPOAI Board of Directors to be used as a guide when choosing colors to be used on dwelling exteriors or driveways. Once again, these colors are a guide and not absolute. However, owners are reminded that the further any color choices you make which deviate from the accepted colors in hue, saturation or brightness, the more likely it is that your choices will be denied by the ARC.

Since there is likely to be some deviation from the actual color and the color displayed to you on your computer screen or the color printed by your printer, it is recommended that owners first select the shade they are interested in and then go to <https://www.ppgpaints.com> or simply "Google" the ppg number to determine a store which carries that color and then bring back color samples from there for your final selection.

**BODY**
